MANAGEMENT'S DISCUSSION OF MONTHLY RESULTS

Information on trends and events in the marketplace of the issuer, which may, in the issuer's opinion, have important consequences in the future for the financial condition and results of the issuer:

The BGS Biogas company finished all biogas plants which were signed with our customers for this year during November. Some of them were already plugged in, so the clients can fully use conditions of the 2012 year pricing. Only two issues remain to be done till the end of the year – cogeneration units delivery to increase energy production of the BPS Havlickova and Hostka.

Our own biogas plant Ovesna Lhota has been also finished. We have already fulfill all conditions for the trial period of the biogas plant. The documentation for the biogas plant is valid for this year, so also our fifth biogas plant will be operated on the 2012 year energy pricing conditions.

Now we are working on the new acquisition project of the BPS Lhota. We should own 60% share and the installed capacity of the biogas will be 550kW. The biogas plant should be constructed till August 2013.

Information concerning how the capital raised in the private placement was used in the calendar month covered by the report, and whether any of the contributed capital was spent during the month:

In the period covered by the report there was no use of funds raised from private placement.
